Selenium - Troubleshooting

26 APRIL, 2022

Troubleshooting

Troubleshooting Solving OS Compatibility Issues

Method 1: Visit the Windows Vista Compatibility Center.

Visit the Windows Vista Compatibility Center to perform the following tasks.

1. Determine which software and devices are and are not compatible with Windows Vista.
2. Locate links to drivers and upgrades that will make your computer compatible.
3. Provide input to help us improve the upgrade experience.

Method 2: Run the program in compatibility mode

- 1.Click Start button , and then type the name of the program in the Start Search box.
- 2.In the Programs list, right-click the program name, and then click Properties.
- 3.On the Compatibility tab, click to select the Run this program in compatibility mode for check box.
- 4.In the list, select an operating system, and then click OK.
- 5.If the program still does not work correctly, go to the next method.

Method 4: Contact the program vendor or the hardware manufacturer. Frequently, the software vendor will be able to resolve the incompatibility issue by providing one of the following resolutions:

- 1.An update to make the current version of the program compatible with Windows Vista
- 2.A version of the program that is compatible with Windows Vista
- 3.Information about any configuration changes to make the program compatible with Windows Vista
